

INFANTS

PRICING AND INFO

\$250 a week 4 hours a day max
(Private Pay only at this time)

DESCRIPTION

Our Infant Program offers developmentally appropriate activities designed to support each child's growth while meeting state licensing standards for infant care.

Activities are guided by infants' individual needs, interests, and developmental stages.

Examples of daily activities include:

- Supervised tummy time and movement to support physical development
- Sensory experiences using age-appropriate toys and materials
- Music, singing, and language exposure to encourage early communication
- Fine motor exploration through reaching, grasping, and play
- Daily routines (feeding, diapering, rest) used as opportunities for nurturing care and learning

All activities are provided in a safe, clean, and closely supervised environment, with a focus on responsive caregiving, consistency, and individual attention.
