DESCRIPTION

Our Preschool Program provides a structured, engaging learning environment that supports school readiness while meeting state licensing standards. Activities are designed to build early academic skills, independence, and confidence through hands-on, age-appropriate learning experiences.

Examples of daily activities include:

- Early literacy activities including letter recognition, storytelling, and pre-writing skills
- Early math concepts such as counting, sorting, patterns, and shapes
- Hands-on art and creative expression using a variety of materials
- Science and discovery activities that encourage curiosity and exploration
- Music, movement, and dramatic play to support creativity and social development
- Fine motor activities such as cutting, drawing, and manipulatives
- Gross motor play indoors and outdoors to build coordination and strength
- Social-emotional learning through guided group activities, routines, and peer interaction

All activities are supported by experienced teachers who provide positive guidance, consistent routines, and a nurturing environment that encourages children to learn, explore, and grow.
