DESCRIPTION

Our Toddler Program offers engaging, developmentally appropriate activities that support growing independence, curiosity, and social skills while meeting state licensing standards. Activities are designed to encourage exploration, language development, and positive peer interactions in a safe, structured, and nurturing environment.

Examples of daily activities include:

- Hands-on sensory play to encourage exploration and problem-solving
- Music, movement, and dance to support coordination and self-expression
- Language-rich activities, including songs, stories, and simple conversations
- Fine motor activities such as stacking, sorting, puzzles, and art exploration
- Gross motor play indoors and outdoors to build strength and balance
- Social skill development through guided play, sharing, and turn-taking
- Daily routines (meals, toileting/diapering, rest) that promote independence and consistency

All activities are guided by each child's developmental stage and supported by consistent caregivers who provide close supervision, encouragement, and positive guidance.
