

A Changed Life

September 19, 2025

Moses translated this wonderful report of A Changed Life. A pastor had called him and could not stop thanking Prakash for the miraculous transformation he's witnessed in both Mahesh and his parents. It's truly a testimony of God's grace and the fruit of faithful service. So, he had Mahesh write his testimony.

My name is Mahesh and I come from Pune. I was born and raised in a traditional Hindu family, but today, by God's grace, I stand as a testimony to His transforming power and love through Jesus Christ.

After completing my 12th grade, I was led to pursue technical training in Air Conditioning and Refrigeration at Prakash. Getting admission into Prakash was nothing short of a miracle and the opportunity completely changed the direction of my life.

When I first came to Prakash, I had no idea that beyond technical skills, I would receive something far greater, a transformation of my heart and life. I was introduced to regular spiritual disciplines such as Starting Point and prayer. It was challenging for me to adjust

Through the teachings, I came to understand why Jesus came to the world, how He gave His life for me, and how life without God is empty and meaningless.

The entire team at Prakash lovingly invested their time and resources into me.

I actively participated in the chapel services, worship, and Christmas programs, where I had opportunities to be involved in music and creative activities. Each of these moments built me up and taught me the joy of fellowship and community.

During my time at Prakash, I gave my heart fully to Jesus Christ. I accepted Him as my Lord and Savior. My life has completely changed. Today, I work as a technician at Tata Motors, and I thank God for providing this job. Every opportunity, every provision — from finances to spiritual growth — has been a testimony of God's faithfulness.

I now live with my mother and younger sister, and we have all come to worship Jesus together. From a strong Hindu background to now being a household that honors Jesus, this is nothing but a miracle in our lives.

I am eternally grateful to Prakash for being the vessel God used to transform my life. What I am today personally is the result of the seeds sown in me during my time there. To God be all the glory,

Thank you again for your prayers and continued donations
