

# Waiting

## Verse

we been wanting

we've been searching

our hearts are burning

we want be one with you

we've been longing

we've been looking

our souls are yearning

we want be one with you

## pre

make us one

make us one

make us one like you are one

we are one

we are one

we are one

we are one like you are one

Bridge

We are unified in Spirit

We are unified in love

There's no room here for division

Let your Kingdom come

Let your Will be done
