

## Expanded Vision – 2026

There has been a diminishing of hopes, dreams, and expectations in the body of Christ. Dullness has crept in, unawares and cataracts of disappointments have obscured our vision. The devourer has worked to blur our vision in order to delay our future. There is warfare over our sight! Delay is not denial and there is an end to the waiting. It is a season to lift up our eyes to the hills from whence comes our help. God is unchanging in all of His ways and His gifts and callings are without repentance.

We have been functioning on a low level of existence – He is calling us deeper and higher. We mustn't surrender to the numbness of a culture of passivity. He is calling us to true experience of the reality of His existence and His Person. His great desire for us is to know Him more than any level of yearning that we have ever experienced. Deep is calling to deep. However, this call, this drawing can become dull as we yield more and more to the noise of the world, the urgency of the immediate.

In this day, there is a deep resonant calling to draw near, to hear, and to know. In this knowing there will be a rapid expansion in our vision. As we see Him truly – we will see ourselves and our destiny in light of His greatness. It is time to receive expansion first inwardly and then our vision will be expanded. There is an expediency to this! We must see differently so that we can see differently. Through the power of His Word and the surgical precision of His Spirit – we will see rightly again!

The greater works and greater miracles are at our disposal. Seeing small has limited the expression of God in the earth. This is the time to “see” what is His will for us to “see!” His vision – His calling – His ability – His fulfillment.

There is a roadmap for greater things being accomplished this year. Vision must be clearly delineated and expanded within the Body to be explosively lived out through our lives. We are living in an appointed time. It is appointed for God to bring forth long dormant dreams and visions. We must shake off weariness, dullness, and despondent living to once again walk in the fresh fire of devotion to God and His ways. So many great things are just ahead. We must not slacken our pace or abdicate our destiny!

Now is the time!

*“To live like this is all the more urgent, for time is running out and you know it is a strategic hour in human history. It is time for us to wake up! For our full salvation is nearer now than when we first believed.” – Romans 13:11 TPT*
