Note to Families and Teachers:

Read through the book completely to enjoy the rhyme and get an understanding of the overall concepts. Then go back as time allows to revisit the concepts on each page. Choose which questions are most appropriate for the age children with whom you are reading.

These lessons are meant to be taught to the children simultaneously with the adult Jesus' Church study. So you will be most effective teaching the children and discussing the answers to the questions if you yourself are learning and meditating on these truths with your own study group.

This week, the questions are in multiple-choice format to better contrast God's truth with the competing philosophies of the world. Take some time to discuss these with the children looking up the corresponding verses when needed.

In the resource section, you will find a link to an online Kahoot game which you can play in teams from any device or just play individually. The game includes the questions from this lesson.
