

Foundation Home Connection

Unit 3: How Did Life Begin? | Lesson 3

⌚ This Home Connection activity should take about fifteen minutes to complete. As soon as you get home, with a parent, write down a time this week when you will work together to complete this activity.

Day: _____ Time: _____

⚙️ Activity

This week, we discussed how we can tell whether something started accidentally or purposefully.

Look at these two pictures. Both are pictures of the same mountain—Mount Rushmore. Under each picture, label whether this part of the mountain formed accidentally or purposefully.

Did you need to watch the creator chisel these faces to trust that they were created purposefully? No. You trust that the faces were formed by something intelligent even though you did not see them being created. You trust this because you recognize actual faces in the rock. This shows that there was a plan, a design. And you know from watching the world around you that faces such

as these aren't created accidentally. Anytime we see something with a design that requires planning, we know that something intelligent created it.

As a family, discuss other objects that you use or have seen that you know were designed on purpose, by someone intelligent.

As a family, spend time thanking God that He designed you purposefully.
