

Welcome to SECOND GRADE

Rooted in Faith and Learning

Second grade is a joyful and important year in a child's academic and spiritual journey. At this stage, students continue to build on foundational skills while developing a deeper understanding of the world around them all through the lens of God's truth and love.

Academically, second graders strengthen their reading fluency and comprehension, grow in their writing abilities, and dive deeper into mathematical concepts like place value, addition and subtraction strategies, and problem-solving. In science and social studies, they explore God's creation and learn about communities, history, and the natural world.

Spiritually, students begin to connect Bible truths to their everyday lives. They learn what it means to love God and love others, grow in character, and recognize the unique gifts God has given them. Scripture, prayer, and Christ-centered conversations are woven throughout the day to help students grow not only in knowledge but in faith.

Second grade is a year of tremendous growth academically, socially, and spiritually. As students are challenged to think critically, work together and act compassionately, they begin to discover who they are in Christ and the purpose He has for them.

With God at the center, second grade becomes more than just a grade level. It becomes a time of discovery, wonder, and blessing.

Have a blessed day!

Mrs. Amador
