

My name is Mrs. Haney, and I have the joy of teaching 4th grade. It is a privilege to partner with families during such a meaningful year in their child's growth and learning.

In my classroom, I strive to create a home away from home—a place where students feel safe, supported, and cared for while being challenged academically. I believe every child has unique strengths, and I encourage them to do their best while guiding them through challenges with patience and care.

In 4th grade, students explore exciting topics across all subject areas:

- Science: Energy, Insects, Plants, and the Ocean, brought to life with hands-on projects and experiments.
- Math: Multi-digit multiplication and division, geometry, and fractions, strengthened through interactive practice and games.
- Reading: Developing deeper comprehension skills by analyzing stories, discussing ideas, and writing thoughtfully.
- History: Studying California history, highlighted by a memorable overnight camping trip to learn about the Gold Rush and experience the beauty of God's creation.

My goal is to make learning engaging and purposeful so that students not only gain knowledge, but also develop confidence, curiosity, and a love for learning. Most importantly, I view teaching as a calling. I believe God has placed each child in my class for a special reason, and I am honored to be part of what He is doing in their lives.

If you would like to learn more about our 4th grade program, please feel free to reach out to me at ahaney@ccsmh.org. I would be delighted to connect with you and share more about what makes this year such a special experience for students and families.

Warmly,
Mrs. Haney
