

# KIDSCO

At KidsCo, your children will grow in their understanding that God made and loves them—all in a safe, nurturing, and educational environment. Our fully background-checked staff and volunteers are here to help your child feel welcomed and engaged.

At check-in, your child will receive a name tag with a unique code that matches yours—please keep this tag, as it's required for pick-up. For safety, only a child's own parent may pick them up (e.g., one parent may not pick up multiple families' children).

## **Please Bring:**

- a labeled bag for each of your kids
- diapers (or underwear), wipes
- change of clothes
- sippy cup or water bottle.

\*Make sure everything is labeled, with their name clearly marked on the outside of their bag so the childcare workers know which is theirs.

## **SICK NOTICE**

Please do NOT bring your child to KidsCo if they have any of the following symptoms:

1. Fever, diarrhea, or vomiting in the last 24 hours
2. Severe coughing-croup or whooping sounds
3. Sore throat or difficulty swallowing
4. Potentially contagious rash
5. Pinkeye
6. Head lice
7. Unusually cranky, less active, or loss of appetite

If you are unsure, or your child seems to be sick, please keep him or her home.

## **NEW INFANTS**

Our meetings are meant just for moms, but young infants may stay with you if you desire! We ask that 6 months and older attend KidsCo or have other childcare arrangements. Out of respect of our speakers, please take crying babies to be comforted out of the meeting and come on back whenever you are ready. We have all been there, so don't worry that we are judging you!

## **SIGN UP**

To help us stay organized and provide the best care possible, please be sure to register each child who will be in childcare at any point throughout the year via Subsplash. This allows the Snyder staff to have accurate, up-to-date information and ensures a safe and smooth experience for everyone. Separate sign-ups for childcare during daytime meetings and Mom's Night Out will be sent out through a Google Doc to the email address you used during registration.
