

Emergency Church Plan

Calvary Chapel Harvest Life

In the event of an emergency, whether it be a natural disaster, earthquake, civil unrest, war, terrorism, cyber-attack, government enforced shutdown, covid, etc. and there is confusion, fear, tragedy or various forms of communications which are not functioning or have been censored by governing authorities, we want to preempt that with the following....

*All church services WILL still be meeting at the church at their regular scheduled times.

*Come down to the church as soon as possible as we will be frequently posting important church information on the front doors in the event of communications being down so that we can keep everyone informed.

*As a church family we will do this to inform you of additional times to come together at the facility or elsewhere with the purpose of meeting various needs for one another regarding ministry, food, water, various provisions, first-aid and/or other assistance just as the early church did in the Book of Acts.

These times are ever changing, and although we are hoping that no adverse events occur, we find it wise to have a basic plan in place now, in the event of any disruption. In all of this we know that the Lord is in Sovereign control and that we will continue to trust and follow Him.

Blessings,

Pastor Curt
