

# SYRACUSE, UTAH

## CHURCH PLANTING PROSPECTUS

### **THE PROBLEM:**

Though Utah is one of the most religious states in the Union, it is infected with a false Gospel.

- Mormonism is deeply rooted in the culture of Utah. No matter where you go in the state, the haze of this false doctrine is ever present.
- The façade of perfectionism and works-based righteousness grip approximately 75% of the Syracuse, UT residents who trust in the Mormon religion.
- With less than 2% of its population identifying as Bible-believing Christians, Syracuse is one of the most unreached areas in the United States with the gospel.

### **THE SOLUTION:**

The best way to combat this false gospel is by planting biblical, healthy, and sustainable churches, to establish a beacon of light in a vastly dark community. Through the local church, believers are equipped for Gospel ministry where they work, play, and live.

### **THE OPPORTUNITY:**

The Lord has moved our family's heart to relocate to Syracuse, Utah and partner with Redemption Church to plant this beacon of light and expand the Gospel witness in this spiritually dark place. To do this, we need prayer and financial partners.

- Prayer is the backbone of church planting-please pray for us as we take the Gospel to a largely unreached part of the United States.
- Finances are the legs- would you consider supporting us as we relocate our family and begin taking the Gospel to the people of Syracuse?
- We need many people "holding the rope" as we go; would you refer us to at least two other people who you believe may be interested in supporting us both prayerfully and financially?

## **ABOUT OUR FAMILY**

We are Travis and Maisie Ayers, originally from Rome, Georgia, but we've called Louisville, Kentucky, home since 2021. Travis is currently pursuing his Master of Arts in Biblical Counseling at The Southern Baptist Theological Seminary, graduating in December 2026, while Maisie is also preparing for ministry through the Seminary Wives Institute.

God has blessed us with three wonderful daughters—Elena, Piper, and Sadie—who bring us immense joy and are a constant reminder of His goodness in our lives. As members of Baxter Avenue Baptist Church, Travis serves as a deacon, and together, we oversee the childcare ministry. Travis regularly provides pulpit supply and teaches Sunday School, opportunities that have refined his passion for preaching, teaching, and shepherding God's people.

For the past few years, the Lord has burdened our hearts for Utah, where approximately 2% of the population identifies as Christian. This region desperately needs gospel-centered, biblically faithful churches that proclaim Christ in both word and deed. We believe God is calling our family to help meet this need by, Lord willing, planting a healthy and sustainable church that will proclaim Jesus, make disciples, and reach the lost with His good news.

Once in Utah, we'll partner with and be sent out by Redemption Church in Ogden. We're prayerfully seeking ministry partners to join us in this vital mission—that the gospel might take root and bear fruit in Utah for the glory of God.

## **Why Davis County, Utah?**

Redemption Church has already established meaningful relationships within the local community, providing a strong foundation for forming a natural launch team and ensuring long-term sustainability. Furthermore, there is a significant need for a Gospel-centered church in this area, presenting a timely and vital opportunity for church planting.
