

Briefs from N.G.C.S

AUGUST | 2025

WELCOME ALL

Florence & Charles Ngoje with some of NGCTC staff

NGCS status

Greetings all! We Praise the Lord for His grace and mercies. NGCTC fraternity takes this opportunity to welcome back the students on 11th August 2025 as we begin the Second semester of the year 2025!

CLASS sessions

The Second semester began with a joint blockcourse on the MISSIONARY LIFE AND PRACTICE by Charles Ngoje.

Charles Ngoje in Session

We had two blockcourses:

2nd year class- **PUBLIC SPEAKING**, Tutor Harun Igadwa.

1st year class- **1 & 2 CORINTHIANS**, Tutor Bonnie Werner

Harun Igadwa
(Yr. 2 class)

Bonnie Werner (Yr. 1 class)

WBS workshop

On 19th July 2025, we were blessed to have a one-day WBS (World Bible School) workshop with the WBS President, Brian Davis. It was attended by the WBS workers from Kenya. The workshop was well attended and the encouraging WBS reports from the workers was positively received.

August 2025

GO Ye ... (matt. 28:18-20)

Sunday 31st August, 2025 marked a powerful moment of ministry and compassion as nine dedicated students - joined Nyabuto Marube (an alumni) in serving at Langata Women Prison. He extended his deepest appreciation to the College leadership for releasing these young ministers - each one carried the light of Christ into a place often forgotten.

He encouraged us by saying *"Let us not grow weary in doing good. The harvest is plentiful, and the workers – like these NGCTC students - are ready".*

"- I was in prison, and you visited me". - Matt. 23:36

INTRODUCTION of a new course

In partnership with HHI, on Saturday 30th August, 2025 a new skill/Course was birthed at NGCTC. A certificate in welding and fabrication was introduced to our students by Nyabuto Marube assisted by Tom Ondicho.

The course has units in Engineering Health and Safety, Engineering Principles, Welding Processes (such as Manual Metal Arc/SMAW, MIG/GMAW, TIG/GTAW), Fabrication Techniques, Materials and Metallurgy, Technical Drawing, Workshop Organization, and Trade Project or Practice.

This Course was warmly embraced by our eager students.

NGCTC Welding & Fabrication students

We acknowledge **Healing Hands International** for supporting this program to be included in our calendar to aid some of our graduates with an interest are to join metal work industry or program in the college. We have a competent and experienced lecturer (Nyabuto Marube) who is taking this class. He's assisted, by one staff member (Tom Ondicho) to make sure that the class is well coordinated.

**APPRECIATION**

As a training body, we take this opportunity to thank Healing Hands International through **Dr. Ebenezer Udofia** Director of operations - Africa who understands the need of our college and the challenges we are facing with our graduates outside their communities.
