

Is your family looking for a new four-legged member? Consider bidding on our Coltriever puppy at the auction!

**About:** The Coltriever is a cross between a Border Collie and a Golden Retriever. These are extremely smart, loyal, active, and beautiful mid-sized dogs. Females are generally 35-50 pounds and males generally 45-60 pounds. They make great companions, thrive in competition settings (agility, scent work, etc.), and are frequently used as therapy or service dogs.

The puppy is being donated from Crooked Rooster Farm (read more here: <https://www.crookedroosterfarm.com>) and are valued at \$3,000.

**Details:** The puppy being donated for the auction will be between 8 weeks to 1 year of age and will be matched by the breeder with the family to ensure the best fit. The puppies will be available by fall at the latest depending on which age pup will be matched to the family upon visiting the farm.

The puppy will have at least its first shots and deworming (depending on age) and be trained to eliminate on wood shavings for ease of potty training in your yard. All puppies come with a written health guarantee.

These incredibly smart dogs are expected to go through training with breeders preferred trainers. Partial coverage for this will be provided in the auction basket.
