

Pastor’s Peace

The practice of Lent brings transformation

Step Three: Rebound

Stage three in transformation is rebound.

Change does not happen overnight. Change happens over time. The hope is that we can move toward stable change. We have acknowledged we need to change and let go of the action or behavior that we are moving on from. Now is the time to reflect. It is time to consider how this change will be implemented and affect you.

Change is difficult. You get into the habits of life and they are hard to break. You eat foods not healthy for you, try to change that. You have a habit of talking badly to people, try to change that. It is hard to break habits. So you need time to reflect on the process and time to prepare especially after you acknowledge the need for change in an area of life.

Blessing and peace, *Jed*
