DO YOU NEED an EXTRA "BOOK"? NO!

Use index cards to track memory verses, attributes of God, Days of Creation, etc.

Read a passage, talk about it with your kids and discussed what they learned about God.

If they ask a question and you don't know the answer, just say "I don't know!" and try to figure out the answer together.

OLDER KIDS/PRE-TEENS?

Encourage your kids to start learning how to inductively study the Bible and reading through the Bible with the adults. Practicing these skills now, propels them to dive into the scriptures with confidence as they go through their teenage years.
