

Big Hurdles & Big Steps

July and August have been full of growth and progress. Both in the Church and in the church property and building. July started off with us being able to celebrate our Church anniversary "Freedom Sunday" and securing an commercial electrician to work on our building. August however brought several hurdles to overcome. Our initial electrical inspection resulted in us having to remove all of our preexisting wiring which meant more damage to the building and an elevated electrical cost. But praise the Lord everything went smoothly and our electrician really worked hard and kept the price down for us. Our men also jumped in and helped with the demo to keep the cost even lower. Also toward the end of the month a group of workers came over from Solid Rock Baptist Church in Victor, MT, Pastor Shane Agee, and built us a much needed drive under before the snow starts falling, as well as, help us prepare our new driveway. Again our Church people joined in to get everything completed and reset the church for services following all the construction.

During these times of difficulties both constructionally and physically God has really blessed. We have had 2 families join the Church and have 3 more families starting our New Members class this month. God has been good and we have seen Him work in some wonderful ways and is beginning to add to His Church. What a privilege to serve Him here in North Idaho.

Construction Progress

New driveway and drive under just in time for winter
