Dear Partners,

Greetings from the Dominican Republic!!! Paula and I are extremely excited to be back in the "country of our heart." This is the place where we started missions ministry in 1988. We have not only renewed our work in San Pedro de Macoris, but have been able to reach out through former ministries to disciple two young men excited to do ministry.

We have spent a lot of time to remodel a small house on Visionland, our 46 acre ministry property. On this property there are sports fields, rescue homes for girls and women from the street. The ministry hospitality house is under construction which will host groups coming to ministry alongside our team in different areas of outreach and ministry.

We chose to live on Visionland because it is relatively close to the area where we are establishing the first outreach chapel from the San Pedro Church. Actually, we will be moving into our home that will give us a comfortable place to live, as well as, be involved in ministry to the missions teams who will be housed on the Visionland.

On October 29, the chapel ministry was launched in a small part in front of the house that we rented for the chapel. God gave us a great beginning with more than 75 people in attendance. Many came from the San Pedro church to help with music and others to support the start of the chapel ministry. That Sunday afternoon service brought attention to the ministry. We are excited about the start and believe that God is going to do a great work in reaching this community, as well as, other communities as chapels will be established in these areas.

Please accept our heartfelt gratitude for your faithful support. Please pray for continued good health and open doors into homes and hearts for the Lord!!

*For His Glory!!*
