Christmas remains a relatively new holiday in China. As understanding of the significance of Christ's birth continues to grow, interest in Christmas has increased. Many now observe it with greater appreciation than traditional holidays rooted in superstition.

Here are just a few Chinese holidays that are rooted in idolatry:

- **Qingming Festival** / *15th day of 3rd month* / Also known as Tomb-Sweeping Day, a time to honor ancestors by cleaning graves and making offerings.
- **Dragon Boat Festival** / *5th day of 5th month* / Commemorates the poet Qu Yuan with dragon boat races and eating zongzi (sticky rice dumplings).
- **Mid-Autumn Festival** / *15th day of 8th month* / Celebrates the harvest and family unity, featuring mooncakes and moon-gazing.

My VA physician has ordered additional diagnostic testing and continues to refer my care to local specialists. After discontinuing prescribed medications, there has been a measurable improvement in strength. Recent laboratory results, however, identified abnormalities that were previously overlooked. Initial findings indicate markers consistent with Lupus. I am scheduled to consult with a specialist to determine an appropriate treatment plan.

Based on the timeline of events, it appears that the poisoning incident originating in China, along with subsequent medication reactions, may have adversely affected my immune system.

Your continued prayers are sincerely requested.
