

HEART FOR HAITI

LA CROIX NEW TESTAMENT MISSION | 9.4.25

REOPENING OF THE SCHOOL

We thank the Lord for the academic year 2024-2025 which went well. We did not register any serious incident cases. It's a grace, He deserves all the glory. We believe He will do the same things this new school year so that everything goes well without difficulty.

We are making all the arrangements to start the learning on Monday October 06, 2025. The classrooms are painted, and we are ready to welcome the children. On the first day we always organize consecration's service, prayer and worship to ask God to be with us, guide us and direct us towards positive things. We pray also for all the collaborators who participate in this work.

This year again, we continue to ask God for health for children with great intelligence and memory so that they pass the tests without difficulty. We ask God that teachers show great wisdom and humility to accompany the children in all the activities.

FABRIC DISTRIBUTION

On the occasion of the school reopening, we take the opportunity to distribute fabrics for the children. This activity is really beneficial for the parents. Their expenses are reduced for the school year. Their testimony is always full of thanks and gratitude. Wasn't for this establishment, they don't know what they would do to send the children to school.

In Haiti, school fees are very expensive. We don't only give fabric, but the sewing team is ready to sew the uniform for the students. It was our dream to equip young people with a skill. We thank the Lord for making our dream comes true. May the Lord pour His grace upon the mission and on Friends and supporters who allow this institution remain alive.

FOOD DISTRIBUTION

It's always a pleasure to announce or show you the people's satisfaction each time we distribute food to them. We thank the Lord for His provision.

Special thanks to all the donors. We could not help someone in the community with the primary needs without your help. They were very happy and they are wordless to thank you for meaningful gesture.
