

***You are not alone.  
There is hope after  
abortion.***

*"The Conqueror's Program has been a tremendous blessing to me as it has helped me to finally begin to speak about my abortion, bringing into the light what had been silenced and kept in darkness for so long. The facilitators consistently showed me the grace and love of Jesus Christ – His amazing kindness – while never compromising truth. I am grateful to God for the gentle way in which He has shepherded me through this process and for what He has taught me along the way."*

**It takes courage to  
seek healing**

 **Conquerors**  
Restoring hope after abortion.

**Conquerors can help**

## **I already know I'm forgiven...that's enough.**

Yes, forgiveness is absolutely paramount in healing after abortion. However, healing involves more than forgiveness. There are often struggles in our lives that we might not connect to abortion. We found this to be true in ourselves and in most women who have gone through Conquerors. Some symptoms commonly related to abortion are:

- guilt and shame
- fear of others finding out
- grief/emotional numbness
- low self-esteem
- depression/isolation
- relationship struggles
- abortion anniversary reaction
- general anxiety
- alcohol/drug misuse

Conquerors gives tools to help address these issues.

## **What is it exactly?**

It is a 12-week confidential Biblically-based group for women who regret their abortions and who want to walk in freedom from guilt, shame, and grief. The group is led by other women who have abortion in their past and have found healing and freedom from the damage of abortion.

***"In all these things we are more than conquerors through Him who loves us."***

**Romans 8:37**

## **Conquerors is...**

**a place to speak the unspoken with other women who understand**

**a place of both truth and grace**

**a place to work through your abortion in light of God's Word, leading to healing and true freedom**
