

2024

Holy Week Bible Reading & Prayer Plan

It has been said that when a person knows their end is near, only the important matters. And truly beginning on Palm Sunday over two thousand years ago, Jesus knowing that the end of His earthly ministry was near, He focused on the important as He rode into the Jerusalem. Therefore, over the next week as a body of believers, let us also saddle up and Biblically ride with Jesus on His road to Resurrection. A ride that will enable us to once again experience His Passion, His Pain, and the fulfillment of His Resurrection promise through our times of reading together, praying together, and worshipping together. Let this be a week where we not only celebrate the most significant week in the history of the world, but also a week where we celebrate the most important person in the history of the world- Our Lord Jesus Christ!
