Israel Quick Prep List

AVERAGE TEMPERATURES IN ISRAEL

WINTER (Dec-early Mar)

Israel's winter weather fluctuates. Some winters are mild and sunny, while some are severe and overcast. There's often heavy rain. In January and February it may even snow in parts of the country. Temperatures range in the 50-60F (10-15C) in most places, but in the 40's (5C) in Jerusalem and the Galilee hills – where it can be very cold at night.

SUMMER (June-early Sept)

Israel temperatures are usually in the high 80's (27C), 90's (32C). Tel Aviv, and Tiberias will be hot and humid (like New York or Miami). Jerusalem is dryer and cooler, particularly at night. Masada & Eilat are extremely hot (possibly above 110F (43C), but dry. Not a drop of rain.

SPRING (late Mar-May) and AUTUMN (late Sept-Nov)

Daytime Israel temperatures are very pleasant; around 60-70F (15-25C) degrees in most of the country (still hot, though, around the Red Sea and Dead Sea). Jerusalem will be in the 40-50F (5-10C) in the evening. There will be some rain – nothing torrential.

***Climate is like costal Southern California**

Israel Quick Prep List

Israel has two primary plug types, C & H:

- 1) Plug type C is the plug which has two round pins,
- 2) Plug type H has three pins in a triangular shape

Israel operates on a 230V supply voltage and 50Hz.

***Click on pictures below for Amazon link:**

TYPE – C (2 prong Un-grounded)

TYPE – H (3 prong grounded)
