STUDENT ENRICHMENT FEES

A Shared Commitment to Student Growth

At CMCS, education goes beyond textbooks, tests, and tuition, it's about creating a learning environment that inspires, supports, and challenges every student to grow both academically and personally. That's where the Student Enrichment Fee (SEF) plays a vital role. The SEF is not just another fee; it's a shared investment in the overall student experience. It supports programs and resources that enrich the entire school community, helping to build a culture of excellence where all students thrive, even if they don't participate in every offering.

Student Enrichment Fees helps sustain and grow the programs that make our school dynamic, engaging, and forward-thinking. These aren't "extras", they're essential components of a well-rounded and future-ready education. In particular, the SEF directly supports key enrichment areas that form the core of our STEAM (Science, Technology, Engineering, Arts, and Math) program, ensuring that our students are equipped with the skills, creativity, and confidence to succeed in a rapidly evolving world.

By contributing to the SEF, families help ensure that every student benefits from the kinds of experiences that enrich learning, spark passion, and nurture well-rounded individuals ready to lead and thrive.

SCIENCE LAB

The SEF helps provide the materials, equipment, and instructional support needed for hands-on, inquiry-based learning in science. These experiences build curiosity, experimentation, and critical thinking from an early age.

LIBRARY

Our library is a central learning space that fosters literacy, research skills, and a love of reading. SEF funds help us maintain an up-to-date and engaging collection, along with digital tools that support student learning across all subjects.

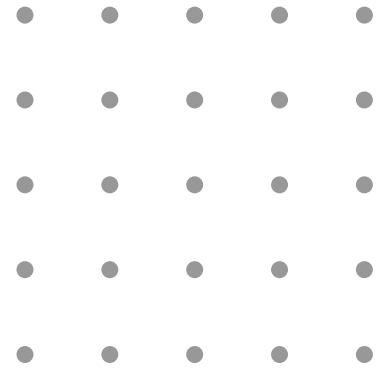

ART

Art education develops creativity, problem-solving, and self-expression. SEF ensures our students have access to quality materials and instruction that encourage imaginative thinking and innovation.

MUSIC

Music fosters discipline, confidence, collaboration, and joy. With SEF support, our music program gives students the opportunity to explore rhythm, instruments, performance, music theory, reading music, and the cultural richness of music.

PHYSICAL EDUCATION (PE)

Good sportsmanship, along with physical education (PE), plays a vital role in promoting physical health, teamwork, and perseverance. Through PE, students not only stay active but also learn valuable life skills that extend beyond the classroom. The SEF (Student Enrichment Fee) supports this mission by providing essential resources, equipment, and structured programs that keep students engaged and help them grow both physically and socially.

STEAM INTEGRATION

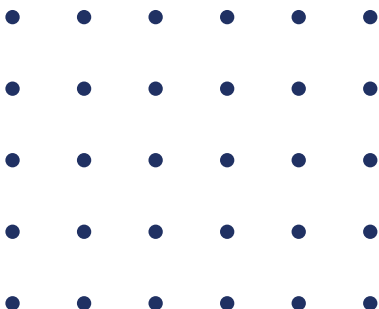

Together, these enrichment programs form the foundation of our school's STEAM initiative. The SEF allows us to connect subjects in meaningful, hands-on ways, helping students think critically, design creatively, and solve real-world problems.

Investing in Junior High Success: How SEF Prepares Students for High School and Beyond

Student Enrichment Fees (SEF) help create a junior high experience that is both engaging and foundational for future success. SEF supports a wide variety of innovative electives that are constantly evolving, designed to spark creativity, build practical skills, and prepare students for high school and beyond.

At the start of the school year, SEF funds the exciting annual camp, a unique experience that helps students build friendships, develop teamwork, and start the year with a strong sense of community. SEF also ensures that every student is equipped with a Chromebook, giving them the digital tools they need to succeed in a modern learning environment.

Through SEF, we're not just enhancing education, we're creating opportunities for growth, connection, and lifelong learning. We thank you for investing in our students, our programs, and the future of our school community.
