*** * *** The 4 day class schedule will cover the same material with Tuesday acting as a review day for these students, still participating in all tasks. Repetition is very important at the age of 4 to help them retain the information that is being taught. It will also help them be more prepared for the 5 year old – PreK 2 curriculum or kindergarten the following year, whichever they are ready for.

The Full Day class will also have a short time of Rest, Science Activities, Large/Small Group Activities & Free Play.
