

## Lesson #1: (A) - God Made Adam, and God Made Me!

- **Main Idea:** God is the reason why you are here. He made Adam in the beginning, and He made you too! He is our creator; and that means we should listen to Him.
- **Bible Verse:** Genesis 2:7  
*...The Lord breathed the breath of life into the man's nose. And the man became a living person.*

## Teaching Outline

### 1. God Is The One Who Made Everything We See

- God made birds and animals... things that fly and things that swim.
- God made the plants and the waters, the sun moon and stars.
- God made this whole earth!

## 2. God Made The First Person From Dust

\*\*\*Bring dirt to class and give the kids a visual of what dirt is and looks like by pouring it from one see-through container into another. You might even let the kids touch the dirt and put their hand print in it. A tupperware container would be my suggestion.

- The Bible tells us that God made the first person out of the dust of the ground... the dirt!
- His name was Adam. Can everyone say "Adam"?
- Wow! God must be very powerful if He can make a living person from just dust! He is powerful!

## 3. God Made You Inside Your Mommies Belly

- Not only did God make and form the first human, Adam, He also made you.
- You were formed inside of your mommies belly.

\*\*\*Help the kids understand this by signaling to your belly, and asking them if they can find their own belly. Ask the kids to rub their belly in a circle!

- God made your belly, but He also made the other parts of you too.
- He made your eyes and ears, your nose and mouth. He made your head, feet and hands, and He gave you a heart!

## 4. We Should Listen To God Because He Made Us

- Since God made us, we want to know who He is.
- Not only do we want to know Him, but we want to listen to Him.
- Repeat after me, can everyone say the word "listen"? And how do we listen? We listen with our ears right? Everyone touch your ears!
- God wants us to listen to what He says!

## Activity: “Who Am I?”

God created each of us with traits that are special to ourselves. Let's find out what's unique about you!

\*\*\*Let the kids color their answers with the right color for their own eyes and hair. You may also have them paint their hands and put a hand print on the bottom of this page if that's something you think you'll be able to accomplish with your group.
