Improving our worship experience at Southpoint

This article comes on the heels of our annual elders/ ministers planning session. We get to spend a couple of days away and enjoy thinking through the last year and looking forward to the next. We have many areas to consider and always have some improvements or changes we'd like to make going forward.

One of the areas that we have been thinking about is worship. I always enjoy our times of worship – singing, prayers, communion – but I have noticed for me some worship times are better than others. What makes the difference? I want to say something like “Well, I liked the songs today”, or “the communion talk was well done” ... but often, I think the quality of the service is based on what I am thinking and feeling at the time!

Worship is unique in this way – it is both corporate and personal. I am there worshipping with everyone; yet my heart and mind have everything to do with what I receive out of our time together. When I am distracted by something, I get less out of it. When I really focus, it often becomes much more meaningful. Let's seek to begin improving our worship experience during 2026 – by improving the thing we can most readily effect – our hearts!

NOTES
