Aims

The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors
- Ensure that staff and governors are aware of their responsibilities with regards to health and safety
- Provide a framework for responding to an incident and recording and reporting the outcomes

Legislation and guidance

This policy is based on the [Statutory Framework for the Early Years Foundation Stage](#), advice from the Department for Education on [first aid in schools](#) and [health and safety in schools](#), guidance from the Health and Safety Executive (HSE) on [incident reporting in schools](#), and the following legislation:

- [The Health and Safety \(First-Aid\) Regulations 1981](#), which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- [The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- [Social Security \(Claims and Payments\) Regulations 1979](#), which set out rules on the retention of accident records
- [The School Premises \(England\) Regulations 2012](#), which require that suitable space is provided to cater for the medical and therapy needs of pupils

Roles and responsibilities

In schools with Early Years Foundation Stage provision, **at least one person who has a current paediatric first aid certificate must be on the premises at all times.**

3.1 Appointed person(s) and first aiders

The school's appointed person is the Headteacher, **Vicky Ross** or Deputy Headteacher, **Ricki Danks** (in her absence).

They are responsible for:

- Taking charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Ensuring that an ambulance or other professional medical help is summoned when appropriate

First aiders are trained and qualified to carry out the role (see section 7) and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment

- Sending pupils home to recover, where necessary
- Filling in an accident report on the same day, or as soon as is reasonably practicable, after an incident (see the template in appendix 2)
- Keeping their contact details up to date

Our school's appointed person(s) and/or first aiders are listed in [appendix 1](#). Their names will also be displayed prominently around the school.

3.2 The local authority and governing board

Lincolnshire Local Authority has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school's governing board.

The governing board delegates operational matters and day-to-day tasks to the headteacher and staff members.

3.2 The governing board

The governing board has ultimate responsibility for health and safety matters in the school, but delegates operational matters and day-to-day tasks to the headteacher and staff members.

3.4 The headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of appointed persons and/or trained first aid personnel are present in the school at all times
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role
- Ensuring all staff are aware of first aid procedures
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place
- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that appropriate measures are put in place
- Ensuring that adequate space is available for catering to the medical needs of pupils
- Reporting specified incidents to the HSE when necessary (see section 6)

3.5 Staff

School staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders in school are
- Completing accident reports for all incidents they attend to where a first aider/appointed person is not called
- Informing the headteacher or their manager of any specific health conditions or first aid needs

First aid procedures

4.1 In-school procedures

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment

- Staff who are not first aid trained should not administer first aid.
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, and will discuss this with a member of the Senior Leadership team before parents are contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents
- If emergency services are called, the office will contact parents immediately
- The first aider/relevant member of staff will complete an accident report form via CPOMS and a EVOSAFE FNOL notification will be made by the Headteacher on the same day or as soon as is reasonably practical after an incident resulting in an injury

4.2 Off-site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A school mobile phone
- A portable first aid kit including, at minimum:
 - A leaflet giving general advice on first aid
 - 6 individually wrapped sterile adhesive dressings
 - 1 large sterile unmedicated dressing
 - 2 triangular bandages – individually wrapped and preferably sterile
 - 2 safety pins
 - Individually wrapped moist cleansing wipes
 - 2 pairs of disposable gloves
- Information about the specific medical needs of pupils
- Parents' contact details (securely held e.g via CPOMS/Integris access)
- When transporting pupils using a minibus or other large vehicle, the school will make sure the vehicle is equipped with a clearly marked first aid box containing, at minimum:
 - 10 antiseptic wipes, foil packed
 - 1 conforming disposable bandage (not less than 7.5cm wide)
 - 2 triangular bandages
 - 1 packet of 24 assorted adhesive dressings
 - 3 large sterile unmedicated ambulance dressings (not less than 15cm x 20 cm)
 - 2 sterile eye pads, with attachments
 - 12 assorted safety pins
 - 1 pair of rustproof blunt-ended scissors

Risk assessments will be completed by the Trip Leader and EVC **Ricki Danks** using EVOLVE prior to any educational visit that necessitates taking pupils off school premises.

For EYFS, there will always be at least one first aider with a current paediatric first aid certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage.

For all other year groups, there will always be at least one first aider on school trips and visits.

First aid equipment

A typical first aid kit in our school will include the following:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings (assorted sizes)
- 2 sterile eye pads
- 2 individually wrapped triangular bandages (preferably sterile)
- 6 safety pins
- 6 medium-sized individually wrapped sterile unmedicated wound dressings
- 2 large sterile individually wrapped unmedicated wound dressings
- 3 pairs of disposable gloves

No medication is kept in first aid kits.

First aid kits are stored in:

The following are suggestions only. Adapt this section to reflect your school's first aid arrangements.

- The medical room
- Reception (at the desk)
- The school hall
- All science labs
- All design and technology classrooms
- The school kitchens
- School vehicles

Record-keeping and reporting

6.1 First aid and accident record book

- An accident record will be completed by the **first aider/relevant member** using the Medical Tracker Software on the same day or as soon as possible after an incident resulting in an injury – this must be completed by the first aider using their own log-in. A EVOSAFE FNOL notification should be used in addition to this for accidents that require reporting to the Local Authority (serious head bumps, suspected breaks, injuries requiring the pupil to be sent home, injuries requiring the emergency services or a subsequent hospital visit). It is the first aiders responsibility to ensure that this is reported to the Headteacher/Bursar
- As much detail as possible should be supplied when reporting an accident, including all of the information included in the Medical Tracker accident form.
- Records held in the first aid and accident book and via Medical Tracker recording will be retained by the school for a period of: date of birth of the child+ 25 years
and for adults: date of the incident +6 years.
Then disposed of securely.

6.2 Reporting to the HSE

The Headteacher will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Headteacher will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:
 - Fractures, other than to fingers, thumbs and toes
 - Amputations
 - Any injury likely to lead to permanent loss of sight or reduction in sight
 - Any crush injury to the head or torso causing damage to the brain or internal organs
 - Serious burns (including scalding)
 - Any scalping requiring hospital treatment
 - Any loss of consciousness caused by head injury or asphyxia
 - Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident). In this case, the Headteacher will report these to the HSE as soon as reasonably practicable and in any event within 15 days of the accident
- Occupational diseases where a doctor has made a written diagnosis that the disease is linked to occupational exposure. These include:
 - Carpal tunnel syndrome
 - Severe cramp of the hand or forearm
 - Occupational dermatitis, e.g. from exposure to strong acids or alkalis, including domestic bleach
 - Hand-arm vibration syndrome
 - Occupational asthma, e.g. from wood dust
 - Tendonitis or tenosynovitis of the hand or forearm
 - Any occupational cancer
 - Any disease attributed to an occupational exposure to a biological agent
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

Pupils and other people who are not at work (e.g. visitors): reportable injuries, diseases or dangerous occurrences

These include:

- Death of a person that arose from, or was in connection with, a work activity*

- An injury that arose from, or was in connection with, a work activity* and the person is taken directly from the scene of the accident to hospital for treatment

*An accident “arises out of” or is “connected with a work activity” if it was caused by:

- A failure in the way a work activity was organised (e.g. inadequate supervision of a field trip)
- The way equipment or substances were used (e.g. lifts, machinery, experiments etc); and/or
- The condition of the premises (e.g. poorly maintained or slippery floors)

Information on how to make a RIDDOR report is available here: [How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)
<http://www.hse.gov.uk/riddor/report.htm>

6.3 Notifying parents

The First Aider, or office will inform parents of any significant accident or injury sustained by a pupil via telephone and any first aid treatment given, on the same day, or as soon as reasonably practicable. If the incident occurs in the afternoon, or near the end of the day, the first aider must ensure that this information is passed to the parent directly, or via the class teacher as there may not be time to call. Parents will be notified of minor injuries via a copy of the first aid slip which will be sent home with the child.

6.4 Reporting to Ofsted and child protection agencies

The Headteacher will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

The Headteacher will also notify the Lincolnshire Safeguarding Partnership, MASH team and LADO if relevant of any serious accident or injury to, or the death of, a pupil while in the school's care.

Training

All school staff are able to undertake first aid training if they would like to.

All first aiders must have completed a training course, and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until (see appendix 2).

Staff are encouraged to renew their first aid training when it is no longer valid.

At all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework and is updated at least every 3 years.

Monitoring arrangements

This policy will be reviewed by the Headteacher every year.

At every review, the policy will be approved by the full governing board.

Links with other policies

This first aid policy is linked to the

- Health and safety policy
- Policy on supporting pupils with medical conditions. Appendix 1: list of appointed person(s) for first aid and/or trained first aiders and Appendix 2: first aid training log – Held in school
