Re: Remote and Blended Learning

We are so immensely proud of the work you are doing at home, and the work that our staff are doing on the premises and from home. Having analysed the applications for key worker spaces, I can assure you our joint commitment at this unusual time means that...

Nurses and pharmacists can continue to treat patients in our hospitals and doctors' surgeries and our local community

Teachers, teaching assistants and support staff can continue to support children in our schools

Supermarket and factory staff can continue to provide food and other supplies for all of us

Local government workers can continue to ensure that our bins are emptied and vulnerable people in our society receive the help and support they need

Plumbers, gas fitters and telephone engineers can continue to keep our key services running

COVID test facility workers can continue to ensure that those people who need to can receive a local, timely COVID test

Police officers can continue to keep our streets safe

... and so much more!

We are Team Richmond.

As I shared yesterday, if you are having issues with your internet connection at home, and/or you do not have enough appropriate devices to access remote learning with all of your children, you can:

- email me at ricki.danks@richmond.lincs.sch.uk
- contact me via the Contact Us page on the school website
- message me directly on ClassDojo, as I am connected to every class
- call me at school on 01754 766639

Yours sincerely

Mr Ricki Danks

Deputy Headteacher
