

grow in faith

UPCOMING PROJECTS

Second Gymnasium: \$6,000,000

Initiated: Fall 2025

We need a second gym to support our growing K-12 student body. Two classes share the gym at once during the school day. Space and scheduling conflicts are becoming a daily challenge. A second gym would allow us to run additional athletic teams for students, as well as run practices at reasonable times to increase rental opportunities.

New Music & Rehearsal Room: \$2,000,000

Initiated: Fall 2025

We are in need of a dedicated music and choir space to support our expanding Performing Arts program. The current room was originally designed as a small rehearsal space and is not equipped to accommodate our 60+ student body choirs and bands. A larger, purpose-built room is essential to meet the needs of our growing student population and foster musical excellence.

Classroom Air Conditioning: \$100,000

Initiated: Fall 2025

Some of our classrooms at Steinbach Christian School reach temperatures of 26-28°C during the warmer months, making it difficult to focus and learn effectively. We would love to be able to add air conditioning in all classrooms.

Chapel Seating Upgrade: \$150,000

Initiated: Fall 2025

The chapel seats are all original and showing their age. With roughly 400 chapel events each year, keeping up with the repairs are difficult.

Driveway Upgrade: \$250,000

Initiated: Fall 2025

It's time to upgrade our gravel driveway... or open a repair shop. Potholes and washboard sections make it rough to drive on, especially during busy drop-off and pick-up times. A smoother, well-maintained surface would make a big difference for families, staff, and visitors alike.
