

## Vibracoustic

About Us

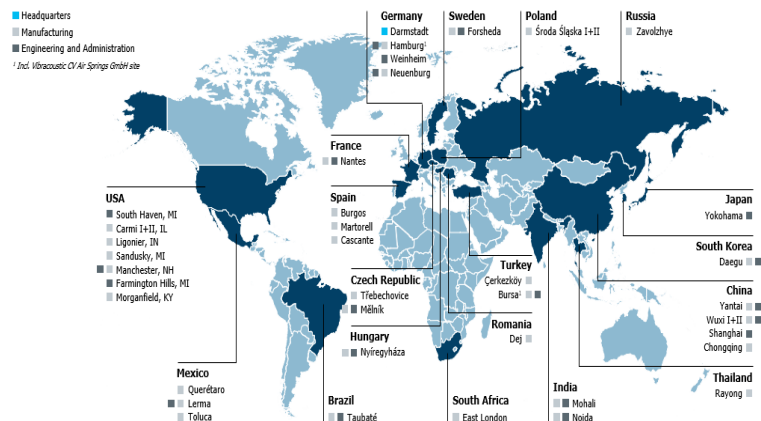

We are a leading global Noise, Vibration, Harshness (NVH) expert. We provide innovative solutions for all current and future challenges of our automotive customers. We embrace change and constantly adapt to expand our leading position in the market. To stay ahead, we provide smart answers to the market trends and customer demands.

We create customized NVH solutions that add comfort, without compromising on handling. Comfort is responding to the needs of our customers and their end-users. Therefore, comfort sits at the core of our positioning. The purpose and mission of our work is to add comfort to mobility concepts of our automotive customers – today and beyond.

 We are Vibracoustic. We are driving comfort.
