This promises to be an evening like you've never experienced - an evening worthy of The World's Greatest Golf Tournament. Even more importantly, your support helps create spaces for kids to breathe, connect and heal together when addiction is a part of their family's story.

Peaceful Family Oklahoma is the only organization in the state built exclusively for kids when addiction is a part of their family's story. Through evidence-based care, connection, and education, we help build coping skills, resilience, and hope.

Our work is healing for some, prevention for others, and strength building for all.
