Important Information

As a church and registered charity we are required to operate in line with our Foundation Trust and our Charitable Objectives.

We believe that God loves everyone, therefore we will not turn any individual away from attending our public events. Nor will we discriminate against an individual or group that wants to hire the church premises providing the planned activity does not conflict with the ethos of the church. The church premises are not available for the promotion of alternative paths to (spiritual) wellbeing nor are they available for the promotion of lifestyles and behaviour that we believe are not Biblical.
