

Screen Printing Final Project

Expectation

You will create a project to display the information you have learned during this class. You will get roughly two weeks to finish your project, I do not want a PowerPoint that was created the night before the assignment was due. You are getting three weeks to do this assignment, so I expect a high level of thought and effort. You will have the option to present your project or just hand it in.

Criteria

All of the following topics must be covered in the project.

- Design
 - Vector
 - Raster
 - Color separation
- Printing process
 - Taping
 - Line up
 - Printing
 - Clean up
- Characteristics of inks used.
- Explain the screen printing principle
- Substrate/Printed Examples
 - Define substrate
 - What items are screen printed
- Explain the exposure process
 - Line up
 - Exposing
 - Clean out
