Garden Keepers...Tanya Sulak

I have an updated map of who's caring for what gardens. I will leave a copy at the Heritage Center, Thursday. The weather restricted our work on Saturday and Sunday

yet, as Suzi stated, a lot of the gardens are cleaned up and ready to go. Many are waiting to plant their annuals. All garden keepers have committed to having things completed by opening date,
June 7th.

Painting trash cans: I have an email out to Jessica Bartak to confirm that the Boys and Girls Club will take on the project to paint the trash cans. Trusting I will hear from her before Friday.

Please note: I approached Jessica and asked her if they would paint flowers on the trash cans. I am very well aware this is not my final choice, yet my original suggestion was to paint flowers mainly because they are located in the garden. This remains my request. If it is otherwise, it would need to be confirmed they would still have interest. Also, if the vote is to move forward with historical designs, I'd like to pass the coordination of this project along to someone else. Thank you.

We tabled any vote till later. Becky and Trina will make or find templates that can be used for the historic theme and there can be flowers around them. Trina could coordinate with Tanya and Jessica on that if needed.

Schoolhouse front door / shed door: Wesley and Grant confirmed that the door in the kitchen of the Entriken will fit on the schoolhouse front door after a few minor alterations. They plan to take care of this as soon as the weather and their schedules allow. Also, Wesley is still in search of a good solid door to replace on the shed.

Sorry, we will not be with you in person or via Zoom Friday. We will be away celebrating our youngest grandson's high school graduation. Thanks, Tanya and Wesley
