

We are pleased to announce the introduction of the NHS Historical Plaque Program.

Purpose:

The purpose of the NHS historical plaque program is to recognize those built structures that are of a certain age, or are of some particular significance in the history and/or of the development of the Township of Nassagaweya.

Goals:

The introduction of this program is meant to educate the community about historic buildings within the former Nassagaweya Township. To instill a sense of pride and respect in the township and its historic architecture, and to inform the public at large about the historical aspect of residences and structures in the former Nassagaweya Township. To tell the story of our former Township to residents and tourists alike, and to foster an interest and understanding of our community's roots.

Who may apply:

Owners of historic properties in the former Nassagaweya Township may apply for a plaque to adorn their house or other historical structure. Structures need to be old enough to have been a part of the historical development of the former Nassagaweya Township, or to be significant in other ways. Applications will be assessed on these criteria.

Costs:

Plaques are priced at \$140.00, and include a one year membership in the historical society for new members. They are to be installed by the property owner, in a location appropriate to their significance (assistance can be provided). These plaques are locally made by a small business.

Please know that participation in the NHS Historical Plaque Program does not involve property heritage designation by the Town of Milton, or any other municipality in Halton County under the Ontario Heritage Act. These are decorative plaques, and do not bind the property in any way.

Process:

- Contact us at info@nasagiweyahistoricalociety.com to find out more about this program and/or if your property is eligible.
- If you need assistance uncovering the history of your residence or structure, the Nasagiweya Historical Society is here to assist you.
