

ROSE LIST 2024

Homewood-Grown Roses

These aren't your grandma's roses. Roses are less fussy and hard-to-grow than they used to be. Many modern roses are bred to be more vigorous and more disease resistant than ever before. At Homewood we carefully choose roses that are suited to our climate and then grow them here on site to help ensure your success. These are the types we grow:

hybrid tea - Most of our roses fall into this category. These are classic, long-stemmed roses with large, full blooms. They tend to need a bit more care unless otherwise noted.

floribunda (fl) - These roses bloom in clusters. It's almost like having an entire bouquet on a single stem. They tend to be bushier, more compact, and somewhat more disease resistant.

grandiflora (gr) - Somewhere between hybrid tea and floribunda, this type produces single blooms and clustered blooms. Though similar to hybrid tea, they are often slightly easier to grow.

Hybrid Teas, Grandifloras, Floribundas - all \$39.99
